Course Description: Zombies!: Legends and Lore

Zombies have become a pop culture phenomenon. Everywhere one looks, from films to video games, songs and literature, there are references to this coolest of mythologies...zombies. Yes, they can be scary, but maybe they are just misunderstood. They can be great villains, loveable characters, add-ons and symbols. But how did they take the pop culture scene by storm? In this class we will go into the origins, history and rise of the zombies (pun intended) and the influence they have had on global pop culture. We hope that students will be dying to take this class. Hope to see you all there!

PLEASE NOTE: This class will not dwell on long scenes of gruesome gore or violence.

Your Instructor

Vincent Gamboni is the instructor. Vince is immersed in the popular and fandom culture. Throughout the years, he has gone to events such as Comic-Con and other popular culture conventions, where he gets to dress up as some of his favorite characters from the anime world. Vince is also a Personal Trainer and Crossfit Coach, Direct Support Professional and a Community Integration Specialist at PBS Consulting.

Vince is excited to be sharing his passion and learning from the students. And having fun in the process!

PBS Adult Education classes are taught using various instructional methods tailored to the specific needs of adult learners. Students will be encouraged to develop critical thinking, research and study skills, and utilize technology for learning and collaboration. All students benefit from being engaged with interesting material and collaborating with other students.
